

Press Release

June 2, 2023

HKS will exhibit two HKS concept cars at "TOKYO AUTO SALON KUALA LUMPUR 2023" held for the first time in Malaysia, and carry out a special project to commemorate the 50th anniversary of its founding.

HKS Co., Ltd. (Headquarters: Fujinomiya, Shizuoka, President: Daisuke Mizuguchi) will exhibit two HKS concept cars, the HKS GR SUPRA AERO (a Grand Prix vehicle at the TOKYO AUTO SALON) and the HKS Driving Performer GR86 TYPE-R at the TOKYO AUTO SALON KUALA LUMPUR 2023 held in Kuala Lumpur, Malaysia from June 9th (Friday) to 11th (Sunday), 2023.

The "HKS GR SUPRA AERO" is the first generation AERO concept car with a racing style body inherited from HKS's successive time attack machines. "HKS Driving Performer GR86 TYPE-R" is a concept car that pursues our unchanging desire to "continue making fun cars" based on the technology we have cultivated over half a century since our founding as a total tuning manufacturer.

We are celebrating the 50th anniversary of our company's founding, and at this stage where TOKYO AUTO SALON, which leads the tuning culture in Japan, is taking another big step forward, we would like to thank you for your support, and we hope that you will continue to share this thought in the future. We deliver this special concept car to HKS fans.
