**HKS will support driver Kalle Rovanperä in the 2024 FORMULA DRIFT JAPAN (FDJ)**

---

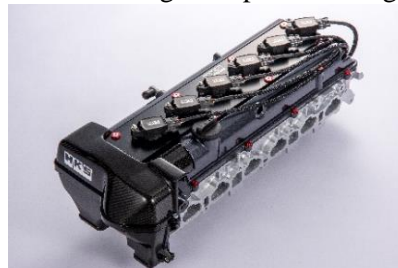

HKS Co., Ltd. (Headquarters: Fujinomiya City, Shizuoka Prefecture, President & CEO: Daisuke Mizuguchi) will continue to supply power unit parts for the "Red Bull GR COROLLA" driven by driver Kalle Rovanperä, who will be making sporadic appearances in the FORMULA DRIFT JAPAN (FDJ) for the 2024 season, following the 2023 season.

Driver Kalle Rovanperä competed in the FIA World Rally Championship (WRC) 2022 season with the "GR YARIS Rally1 HYBRID" from TOYOTA GAZOO Racing World Rally Team and became the youngest champion in WRC history. He continued his success in the following 2023 season, securing the championship for the second consecutive year as a rally driver.

For his participation in FORMULA DRIFT JAPAN (FDJ) with the vehicle "GR COROLLA," the car has been modified with a 2JZ-GTE engine, and HKS will supply the following parts.

- "2JZ-GTE 3.4L KIT" increases displacement to 3.4L and realizes more than 1,000 hp.
- "SUPER FIRE RACING COIL PRO" for efficient ignition with 1.6 times higher voltage than stock.
- "GT7095\_BB turbine" with low-friction ball bearings and potential to generate more than 950 hp.
