

November 14, 2025
HKS Co., Ltd.

**HKS to Exhibit at the First-Ever "TOKYO AUTO SALON HONG KONG 2025"
Featuring the concept car "THE HKS SKYLINE GT-R BNR34 Dimension Z"
Presented as the flagship model of the new vehicle sales brand "THE HKS"**

HKS Co., Ltd. (head office: Fujinomiya City, Shizuoka Prefecture; President and CEO: Daisuke Mizuguchi; hereinafter "HKS") will exhibit the concept car "THE HKS SKYLINE GT-R BNR34 Dimension Z" at "TOKYO AUTO SALON HONG KONG 2025," being held in Hong Kong for the first time from December 11 to 14, 2025. The car will be presented as a symbolic model of HKS's vehicle sales business, "THE HKS."

"THE HKS SKYLINE GT-R BNR34 Dimension Z"

■ **About the exhibit vehicle "THE HKS SKYLINE GT-R BNR34 Dimension Z"**

The "THE HKS SKYLINE GT-R BNR34 Dimension Z" is a concept car that concentrates the technologies and philosophy HKS has cultivated for over 50 years and pursues the "impulse to drive" and "new frontiers of driving". By fusing HKS's unique know-how developed through leading high-performance parts and tuning culture, the vehicle was created to evoke an irresistible urge to drive in every scene from circuits to the street. This model is being developed with vehicle sales in mind as an iconic model in the "THE HKS" series, and represents an initiative aimed at proposing new value for the HKS brand and expanding its business domain.

■ About HKS

Since its founding in 1973, HKS has been a leading company in the automotive aftermarket, supplying high-performance parts such as engine components, turbochargers, mufflers, suspension systems, air cleaners, and electronic control units to car enthusiasts worldwide and helping to build the "tuning culture."

In recent years, leveraging its product development experience in the aftermarket, HKS has also undertaken contract development and production for automobile manufacturers. The company is advancing efforts toward a sustainable, decarbonized society, including development of high-efficiency engines and demonstration projects such as a battery-swap EV truck funded by the Ministry of the Environment.

■ About the "THE HKS" brand

"The HKS" embraces the keywords "the impulse to drive," "pursuit of every quality," and "creation of new frontiers." The brand is organized into three concept directions—Dimension X, Y, and Z—each reflecting a different design philosophy. For each model, HKS develops an optimal vehicle based on the applicable concept. Each car, infused with the full extent of HKS technology, is built at HKS's headquarters factory and delivered to the customer.

- Ignite Your Emotion -

The urge to drive. The pursuit of quality in all aspects. And the creation of the unknown domain. Style, philosophy, ideas and passion. Bolstered with everything the company has accomplished in 50 years, HKS is entering into a whole new field. We make cars that can only be created by us. Our challenge is creating the best cars. A new chapter in driving fun that no one has ever felt is here – from HKS, a company that enjoys cars more than anyone else.

Dimension Z

The creation of the unknown domain
A car that breaks new ground in driving
that the world has yet to see
That even the creator has yet to imagine
